

Sensor Anomalies WG

- DESC technical group, co-chaired by **Nomerotski** from inception in 2015
- Main focus on CCD signatures, important for precision astrometry and photometry in LSST, WL is one of strongest motivations
 - Started series of workshops Precision Astronomy with CCDs (PACCD) at BNL in 2013, 2014 & 2016, next in Dec 2018 at Caltech
- Working together with the LSST Camera project on the raft production and testing
